About Me

I'm passionate about designing meaningful, user-centered experiences shaped by hands-on work in UX research, UI design, and immersive technologies. Through projects like the Sensory Map App, VR game development, and industry collaborations, I've built strong skills in prototyping, usability testing, and translating insights into intuitive digital products. If you're looking for someone who's driven, curious, and experienced in turning real user needs into thoughtful design solutions, I'd love to connect.

Skills

UX Research: Interviews, surveys, usability testing, journey mapping, personas, user flows

Design: Wireframing, prototyping, responsive UI design, visual design systems, typography

Tools: Figma, Adobe Creative Suite (Photoshop, Illustrator, InDesign), Miro, WordPress

Front-end: HTML, CSS, JavaScript (basic)

Soft Skills: Collaboration, adaptability, critical thinking, attention to detail

Languages

Croatian (Native) English (C1)

Spanish (A2)

Education

- School of Graphics, Design and Sustainable Construction**
High School Diploma – Interior Architecture Design / Split, Croatia Sep 2016 – Jul 2020
Gained foundational skills in spatial design, architecture drawing, and creative visualization.
- Fontys University of Applied Sciences**
ICT & Media Design - BSc / Netherlands Sep 2020 - Present
Focus: UX Research & UI Design, front-end development, digital solutions, immersive experiences
- Maynooth University**
Erasmus Program / Dublin, Ireland Feb 2025 - June 2025
Modules in UX, Psychology, Spanish and Social Policy; broadened intercultural and research skills.

Experience

- Dungeon Party VR Game (Group Project)**
Enversed Studios - Eindhoven, Netherlands Nov 2025 - Present
 - Co-creating a hybrid multiplayer "party" game where players in VR interact with couch-co-op players on tablet/mobile.
 - Leading concept development, player experience mapping, and usability testing loops.
 - Designing UI/UX for both VR and companion-app gameplay.
 - Contributing to Unity development (game mechanics, interactions, scene logic) as part of a multidisciplinary team
- UX Design & Research Intern**
Club Canary – Tenerife, Spain Sep 2024 - Feb 2025
 - Researched the upsell flow (interviews, surveys, journey maps) and defined key UX issues.
 - Designed responsive wireframes and prototypes in Figma based on findings.
 - Ran usability tests and implemented clear, insight-driven design iterations.
 - Built a simple backend + API setup and documented the architecture for integration.
- Sensory Map Application (Project)**
Fonys HRM & Applied Psychology - Eindhoven, Netherlands Sep 2023 - Feb 2024
 - Initiated, researched, and designed a mobile app supporting individuals with autism in navigating sensory-friendly routes on campus.
 - Project made for Fontys Psychology Department and continued for further development after handoff.
 - Presented at Fontys Market Day as a featured student innovation project.
- Barista & All-Rounder**
Hubble Community Café – Eindhoven, Netherlands Oct 2023 – Jun 2024; Sep 2025 – Present
- Crew Member**
Five Guys – Eindhoven, Netherlands Oct 2022 – Jul 2023
- Waitress**
Restaurant Jupiter – Split, Croatia Jun 2018 – Sep 2021
